

# \$250,000 REWARD

For information leading to the arrest and conviction of those responsible for the  
MURDER of Michael “Biker” Sherlock.

My name is Amy Sherlock and the happier times picture of Biker and I, had been taken near the very spot where, on December 2, 2015, Biker purportedly committed suicide after successfully having been rewarded not 1 but 2 adult-use cannabis licenses which he had fought so long and hard to acquire.

His death by suicide made no sense then and with the passage of time, even less so today!

It is only now, with newly acquired evidence, that I am able to determine, with 100% certainty, that Biker did NOT die of a self-inflicted gun shot wound. See for yourself. Both the following 3<sup>rd</sup> party reports do a deep dive into the physical evidence at the crime scene and the medical examiner's report and neither support suicide as a cause of death!

While I have been in civil litigation with his former partners and investors since 2020 it is only within the last few weeks that one of those partners, Duane Alexander, a defendant in my case, decided to come clean and provided concrete evidence proving there was a conspiracy to eliminate Biker and deny me, his widow, of his life work and the future that Biker had dreamed of not only for himself and for our family but to provide greater patient access to licensed medical cannabis.

History should not rely on those who profited from his death. Your information may be held in confidence, but it will go towards the arrest and prosecution of those who stole Biker away from us. If you have any information that would lead us to those who ordered Bikers murder, or those who were involved in his assassination, please respond to the email below.

**Email to: [BikersReward@gmail.com](mailto:BikersReward@gmail.com) and we will follow up with you.**

*Thank you.*
