Secretary of State June 27, 2017.]

LEGISLATIVE COUNSEL'S DIGEST

SB 94, Committee on Budget and Fiscal Review. Cannabis: medicinal and adult use.

(1) The California Uniform Controlled Substances Act makes various acts involving marijuana a crime except as authorized by law. Under the Compassionate Use Act of 1996 and existing law commonly referred to as the Medical Marijuana Program, these authorized exceptions include exemptions for the use of marijuana for personal medical purposes by patients pursuant to physician's recommendations and exemptions for acts by those patients and their primary caregivers related to that personal medical use. The Medical Marijuana Program also provides immunity from arrest to those exempt patients or designated primary caregivers who engage in certain acts involving marijuana, up to certain limits, and who have identification cards issued pursuant to the program unless there is reasonable cause to believe that the information contained in the card is false or fraudulent, the card has been obtained by means of fraud, or the person is otherwise in violation of the law. Under existing law, a person who steals, fraudulently uses, or commits other prohibited acts with respect to those identification cards is subject to criminal penalties. Under existing law, a person 18 years of age or older who plants, cultivates, harvests, dries, or processes more than 6 living cannabis plants, or any part thereof, may be charged with a felony if specified conditions exist, including when the offense resulted in a violation of endangered or threatened species laws.

The Control, Regulate and Tax Adult of Marijuana Act (AUMA), an initiative measure enacted by the approval of Proposition 64 at the November 8, 2016, statewide general election, commencing January 1, 2018, requires those patients to possess, and county health departments or their designees to ensure that those identification cards are supported by, physician's recommendations that comply with certain requirements.

This bill would require probable cause to believe that the information on the card is false or fraudulent, the card was obtained by fraud, or the person is otherwise in violation of the law to overcome immunity from arrest to patients and primary caregivers in possession of an identification card. The bill would authorize a person 18 years of age or older who plants, cultivates, harvests, dries, or processes more than 6 living cannabis plants, or any part thereof, where that activity results in a violation of specified laws relating to the unlawful taking of fish and wildlife to be charged with a felony. By modifying the scope of a crime, this bill would impose a state-mandated local program.

(2) AUMA authorizes a person 21 years of age or older to possess and use up to 28.5 grams of marijuana and up to 8 grams of concentrated cannabis, and to possess up to 6 living marijuana plants and the marijuana produced by those plants, subject to certain restrictions, as specified. Under AUMA, these restrictions include a prohibition on manufacturing concentrated cannabis using a volatile solvent, defined as volatile organic compounds and dangerous poisons, toxins, or carcinogens, unless done in

accordance with a state license. Under AUMA, a violation of this prohibition is a crime.

This bill would change the definition of volatile solvent for these purposes to include a solvent that is or produces a flammable gas or vapor that, when present in the air in sufficient quantities, will create explosive or ignitable mixtures.

(3) The Medical Cannabis Regulation and Safety Act (MCRSA) authorizes a person who obtains both a state license under MCRSA and the relevant local license to engage in commercial medical cannabis activity pursuant to those licenses, as specified. AUMA authorizes a person who obtains a state license under AUMA to engage in commercial adult-use marijuana activity, which does not include commercial medical cannabis activity, pursuant to that license and applicable local ordinances. Both MCRSA and AUMA generally divide responsibility for state licensure and regulation between the Bureau of Marijuana Control (bureau) within the Department of Consumer Affairs, which serves as the lead state agency, the Department of Food and Agriculture, and the State Department of Public Health. AUMA requires the bureau to convene an advisory committee to advise these licensing authorities on the development of standards and regulations pursuant to the licensing provisions of AUMA, and requires the advisory committee members to include specified subject matter experts. AUMA requires the licensing authorities to begin issuing licenses to engage in commercial adult-use marijuana activity by January 1, 2018.

This bill would repeal MCRSA and include certain provisions of MCRSA in the licensing provisions of AUMA. Under the bill, these consolidated provisions would be known as the Medicinal and Adult-Use Cannabis Regulation and Safety Act (MAUCRSA). The bill would rename the bureau the Bureau of Cannabis Control, would revise references to “marijuana” or “medical cannabis” in existing law to instead refer to “cannabis” or “medicinal cannabis,” respectively, and would apply a definition of “cannabis” similar to the definition used in MCRSA to MAUCRSA. The bill would generally impose the same requirements on both commercial medicinal and commercial adult-use cannabis activity, with specific exceptions. The bill would make applying for and being issued more than one license contingent upon the licensed premises being separate and distinct. The bill would allow a person to test both adult-use cannabis and medicinal cannabis under a single testing laboratory license. The bill would require the protection of the public to be the highest priority for a licensing authority in exercising its licensing, regulatory, and disciplinary functions under MAUCRSA, and would require the protection of the public to be paramount whenever the protection of the public is inconsistent with other interests sought to be promoted. The bill would require the advisory committee advising the licensing authorities on the development of standards and regulations to include persons who work directly with racially, ethnically, and economically diverse populations.

(4) Under existing law, most of the types of licenses to be issued for commercial adult-use cannabis activity under AUMA correspond to types

of licenses to be issued for commercial medicinal cannabis activity under MCRSA. However, specialty cottage cultivation licenses, producing dispensary licenses, and transporter licenses are available under MCRSA but not AUMA, while microbusiness licenses and commencing January 1, 2023, large outdoor, indoor, and mixed-light cultivation licenses are available under AUMA but not MCRSA.

Under this bill, the types of licenses available for commercial adult-use cannabis activity and commercial medicinal cannabis activity would be the same. The types of licenses available under both MCRSA and AUMA would continue to be available for both kinds of activity, and specialty cottage cultivation licenses, microbusiness licenses, and commencing January 1, 2023, large outdoor, indoor, and mixed-light cultivation licenses would also be available for both kinds of activity. Producing dispensary and transporter licenses would not be available.

This bill would impose certain requirements on the transportation and delivery of cannabis and cannabis products, and would provide the California Highway Patrol authority over the safety of operations of all vehicles transporting cannabis and cannabis products. The bill would require a retailer to notify the licensing authority and the appropriate law enforcement authorities within 24 hours after discovering specified breaches of security. The bill would prohibit cannabis or cannabis products purchased by a customer from leaving a licensed retail premises unless they are placed in an opaque package.

(5) Both MCRSA and AUMA require cannabis or cannabis products to undergo quality assurance, inspection, and testing, as specified, before the cannabis or cannabis products may be offered for retail sale. Licenses for the testing of cannabis are to be issued by the bureau under MCRSA and by the State Department of Public Health under AUMA.

This bill would revise and recast those requirements to instead require distributors to store cannabis batches on their premises during testing, require testing laboratory employees to obtain samples for testing and transport those samples to testing laboratories, and require distributors to conduct a quality assurance review to ensure compliance with labeling and packing requirements, among other things, as specified. The bill would create the quality assurance compliance monitor, an employee or contractor of the bureau. The bill, commencing January 1, 2018, would authorize a licensee to sell untested cannabis or cannabis products for a limited time, as determined by the bureau, if the cannabis or cannabis products are labeled as untested and comply with other requirements determined by the bureau. The bill would also require the bureau to issue testing laboratory licenses.

(6) Both MCRSA and AUMA prohibit testing laboratory licensees from obtaining licenses to engage in any other commercial cannabis activity. MCRSA, until January 1, 2026, places certain additional limits on the combinations of medicinal cannabis license types a person may hold. AUMA prohibits large cultivation licensees from obtaining distributor or microbusiness licenses, but otherwise provides that a person may apply for

and be issued more than one license to engage in commercial adult-use cannabis activity.

The bill would apply the above-described provisions of AUMA to both adult-use cannabis licensees and medicinal cannabis licensees and would not apply MCRSA's additional limits.

(7) Both MCRSA and AUMA require applicants for state licenses to electronically submit fingerprint images and related information to the Department of Justice for the purpose of obtaining conviction and arrest information and to provide certain information and documentation in or with their applications under penalty of perjury. Although these requirements are generally similar, certain persons who are considered to be applicants subject to these requirements under MCRSA are not considered applicants under AUMA, and certain information or documentation must be provided by applicants for licenses under MCRSA or AUMA, but not both. Until January 1, 2019, AUMA authorizes licensing authorities to issue temporary licenses for a period of less than 12 months. Until December 31, 2019, AUMA prohibits licensing authorities from issuing licenses to persons who are not residents of California, as specified.

This bill would repeal that residency requirement. Under the bill, applicants for licenses under MAUCRSA would be subject to revised and recasted application requirements, and the persons subject to these requirements would also be revised. By modifying the scope of the crime of perjury, this bill would impose a state-mandated local program. The bill would also require local jurisdictions to provide information related to their regulation of commercial cannabis activity to the licensing authorities, as specified, and would require a licensing authority to take certain actions with regards to an application for license depending upon the response of the local jurisdiction. By requiring local governments to provide this information, this bill would impose a state-mandated local program. The bill, until July 1, 2019, would exempt from the California Environmental Quality Act the adoption of a specified ordinance, rule, or regulation by a local jurisdiction that requires discretionary review and approval of permits, license, or other authorizations to engage in commercial cannabis activity. The bill would also specify requirements and limitations for those temporary licenses. The bill would provide that MAUCRSA does not prohibit the issuance of a state temporary event license to a licensee authorizing onsite cannabis sales to, and consumption by, persons 21 years of age or older at a county fair or district agricultural association event, provided that certain requirements are met.

(8) MCRSA provides a city in which a state licensed facility is located with the full power and authority to enforce MCRSA and regulations promulgated by the bureau and licensing authorities under MCRSA, if delegated by the state. MCRSA requires a city with this delegated authority to assume complete responsibility for any regulatory function relating to those licensees within the city limits that would otherwise be performed by the county or any county officer or employee.

This bill would expand these provisions to provide for the state delegation of the full power and authority to enforce MAUCRSA and regulations promulgated by the bureau and other licensing authorities under MAUCRSA to cities.

(9) AUMA requires a licensing authority to deny an application if either the applicant, or the premises for which a state license is applied, do not qualify for licensure. AUMA authorizes the denial of an application for licensure or renewal of a state license if any of specified conditions are met, including, among other things, the applicant has had a license revoked under AUMA, and the failure to comply with certain requirements imposed to protect natural resources. AUMA requires licensing authorities, in determining whether to grant, deny, or renew a license to engage in commercial adult-use cannabis activity, to consider factors reasonably related to the determination, including whether it is reasonably foreseeable that issuance, denial, or renewal of the license could allow unreasonable restraints on competition by creation or maintenance of unlawful monopoly power or could result in an excessive concentration of retail, microbusiness, or nonprofit licensees, among other factors. Beginning on March 1, 2020, and annually thereafter, AUMA requires, and beginning on March 1, 2023, and annually thereafter, MCRSA requires, each licensing authority to prepare and submit to the Legislature a report containing specified information on the authority's activities concerning commercial cannabis activities and to post the report on the authority's Internet Web site.

This bill would additionally authorize the denial of an application for licensure or renewal of a state license if the applicant has a license suspended under MAUCRSA or for inability to comply with certain requirements. The bill would remove the factors referenced above from consideration of a licensing authority in making a licensing decision, except that the bureau would continue to consider if an excessive concentration of licensees exists in determining whether to grant, deny, or renew a retail license, microbusiness license, or nonprofit license. The bill would require state licensing authorities to include in the first publication of their annual reports, which would be due on March 1, 2023, a joint report regarding the state of the cannabis market in California which identifies any statutory or regulatory changes necessary to ensure that the implementation of MAUCRSA does not result in those factors occurring, as specified. The bill would require, no later than January 1, 2018, the Secretary of Business, Consumer Services, and Housing Agency or the secretary's designee to initiate work with the Legislature, the Department of Consumer Affairs, the Department of Food and Agriculture, the State Department of Public Health and any other related departments to ensure that there is a safe and viable way to collect cash payments for taxes and fees related to the regulation of cannabis activity throughout the state.

(10) AUMA establishes the Marijuana Control Appeals Panel and requires the panel to consist of 3 members appointed by the Governor and subject to confirmation by a majority vote of all of the members elected to the Senate. AUMA allows any person aggrieved by a state licensing authority

decision ordering a penalty assessment or issuing, denying, transferring, conditioning, suspending, or revoking a license to engage in commercial adult-use cannabis activity to appeal that decision to the panel. AUMA limits the panel's review of those decisions to specific inquiries. AUMA also allows a licensing authority or any person aggrieved by an order of the panel to seek judicial review of the order, as specified.

This bill would rename the panel the Cannabis Control Appeals Panel, and would require the membership of the panel to include one member appointed by the Senate Committee on Rules and one member appointed by the Speaker of the Assembly in addition to the 3 members appointed by the Governor. The bill would revise the panel's jurisdiction to include the review of appeals of state licensing authority decisions with regard to both commercial medicinal and commercial adult-use cannabis activity, and would provide for the appeal of orders of the panel to the Supreme Court and the courts of appeal, as specified. The bill would limit the judicial review of panel orders to specific inquiries and would provide that the findings and conclusions of state licensing authorities on questions of fact are final and not subject to review.

(11) AUMA prescribes various restrictions and requirements on the advertising or marketing of adult-use cannabis and adult-use cannabis products. MCRSA sets forth prohibitions on the adulteration or misbranding of medicinal cannabis products and authorizes the State Department of Public Health to take certain actions when it has evidence that a medicinal cannabis product is adulterated or misbranded. Existing law also authorizes the State Department of Public Health to issue citations and fines for violations of MCRSA or regulations adopted under MCRSA, as specified.

This bill additionally would prohibit a technology platform or an outdoor advertising company from displaying an advertisement from a licensee on an Internet Web page unless the advertisement displays the licensee's license number. The bill would generally apply those advertising and marketing restrictions, and those adulteration and misbranding prohibitions and enforcement provisions, to both medicinal and adult-use cannabis and cannabis products. The bill would also require edible cannabis products to be marked with a universal symbol, as specified. The bill would revise the State Department of Public Health's authority to issue citations and fines to include all violations of MAUCRSA and regulations adopted under MAUCRSA.

(12) Under existing law, licensing fees received by the state licensing authorities under both MCRSA and AUMA are deposited into the Marijuana Control Fund and fine and penalty moneys collected under MCRSA are generally deposited into the Medical Cannabis Fines and Penalties Account within the fund.

This bill would rename the Marijuana Control Fund the Cannabis Control Fund, would rename the Medical Cannabis Fines and Penalties Account the Cannabis Fines and Penalties Account, and would generally provide for the deposit of fine and penalty money collected under MAUCRSA into the Cannabis Fines and Penalties Account. The bill would appropriate

\$3,000,000 from the Cannabis Control Fund to the Department of the California Highway Patrol to be used for training drug recognition experts, as specified. The bill would require the bureau, in coordination with the Department of General Services, by July 1, 2018, to establish an office to collect fees and taxes in the County of Humboldt, County of Trinity, or County of Mendocino in order to ensure the safe payment and collection of cash in those counties.

(13) AUMA, commencing January 1, 2018, imposes an excise tax on purchasers of cannabis or cannabis products measured by the gross receipts of retail sale and a separate cultivation tax on harvested cannabis that enters the commercial market, as specified. A violation of the provisions relating to these taxes is a crime unless otherwise specified. AUMA requires revenues from those taxes to be deposited into the California Marijuana Tax Fund, and continuously appropriates that tax fund for specified purposes pursuant to a specified schedule. Under AUMA, this schedule includes an annual allocation to state licensing authorities for reasonable costs incurred in regulating commercial cannabis activity, to the extent those costs are not reimbursed pursuant to MCRSA and a specified provision of AUMA, and a separate allocation to the California State Auditor for reasonable costs incurred in conducting a specified performance audit that AUMA requires the California State Auditor's Office to conduct commencing January 1, 2019, and annually thereafter.

This bill would require the cannabis excise tax to be measured by the average market price, as defined, of the retail sale, instead of by the gross receipts of the retail sale. The bill would define "enters the commercial market" and other terms for the purposes of the cannabis cultivation and excise taxes and would require distributors and, in certain circumstances, manufacturers, to collect and remit the taxes, as specified. The bill would require distributors, instead of retailers and cultivators, to obtain permits from the State Board of Equalization. By modifying the scope of a crime, this bill would impose a state-mandated local program. The bill would rename the tax fund the California Cannabis Tax Fund. The bill would also transfer the performance audit to the Office of State Audits and Evaluations within the Department of Finance, would require the audit to be performed triennially instead of annually, and would transfer the allocation from the tax fund for the reasonable costs incurred in conducting that audit to the Department of Finance. By modifying the purposes for which the tax fund is continuously appropriated, the bill would make an appropriation.

(14) AUMA authorizes the Department of Food and Agriculture to issue licenses for the cultivation of adult-use cannabis beginning January 1, 2018, and to adopt regulations governing the licensing of indoor, outdoor, and mixed-light cultivation sites.

This bill would revise the department's license types to, among other things, authorize the department to license and adopt regulations governing nursery and special cottage cultivation sites.

(15) Existing law requires the State Water Resources Control Board, in consultation with the Department of Fish and Wildlife, to adopt principles

and guidelines for diversion and use of water for cannabis cultivation in areas where cannabis cultivation may have the potential to substantially affect instream flows. Existing law authorizes the State Water Resources Control Board, the Department of Fish and Wildlife, and other agencies to establish fees to cover the costs of their cannabis regulatory programs.

This bill would require an application for a license for cultivation to identify the source of water supply. The bill would require a license for cultivation to include additional requirements for compliance with the above-described provisions and to include in every license for cultivation a condition that the license is prohibited from being effective until the licensee has complied with provisions relating to a streambed alteration agreement or has received written verification from the Department of Fish and Wildlife that a streambed alteration agreement is not required. The bill would prohibit the Department of Fish and Wildlife from issuing new licenses or increasing the total number of plant identifiers within a watershed or area if the board or the Department of Food and Agriculture finds, based on substantial evidence, that cannabis cultivation is causing significant adverse impacts on the environment in a watershed or other geographic area. The bill would expand the authorization for the State Water Resources Control Board, the Department of Fish and Wildlife, and other agencies to establish fees to cover the costs of their cannabis programs, regardless of whether the programs are regulatory.

(16) AUMA requires each California regional water quality board and authorizes the State Water Resources Control Board to address discharges of waste resulting from medical cannabis cultivation and adult-use cannabis cultivation.

This bill would require the state board or the appropriate regional board to address the discharges of waste resulting from cannabis cultivation.

(17) Existing law prohibits an entity from substantially diverting or obstructing the natural flow of, or substantially changing or using any material from the bed, channel, or bank of, any river, stream, or lake, or from depositing certain material where it may pass into any river, stream, or lake, without first notifying the Department of Fish and Wildlife of that activity, and entering into a lake or streambed alteration agreement if required by the department to protect fish and wildlife resources. Existing law exempts an entity from the requirement to enter into a lake or streambed alteration agreement with the department for activities authorized by a license or renewed license for cannabis cultivation issued by the Department of Food and Agriculture for the term of the license or renewed license if the entity submits to the department the written notification, a copy of the license or renewed license, and the fee required for a lake or streambed alteration agreement, and the department determines certain requirements are met. Existing law authorizes the department to adopt regulations establishing the requirements and procedure for the issuance of a general agreement in a geographic area for a category or categories of activities related to cannabis cultivation that would be in lieu of an individual lake or streambed alteration agreement.

This bill would instead authorize the department to adopt general agreements for the cultivation of cannabis and would require the adoption or amendment of a general agreement to be done by the department as an emergency regulation. The bill would require any general agreement adopted by the department subsequent to adoption of regulations to be in lieu of an individual lake or streambed alteration agreement.

(18) AUMA requires standards developed by the Department of Pesticide Regulation, in consultation with the Department of Food and Agriculture, for the use of pesticides in cultivation, and maximum tolerances for pesticides and other foreign object residue in harvested cannabis to apply to licensed cultivators.

This bill would require the Department of Pesticide Regulation to develop guidelines for the use of pesticides in the cultivation of cannabis and residue in harvested cannabis. The bill would prohibit a cannabis cultivator from using any pesticide that has been banned for use in the state.

(19) Under existing law, the Department of Pesticide Regulation generally regulates pesticide use. A violation of those provisions and regulations adopted pursuant to those provisions is generally a misdemeanor. AUMA requires the Department of Pesticide Regulation, in consultation with the State Water Resources Control Board, to promulgate regulations that require the application of pesticides or other pest control in connection with cannabis cultivation to meet standards equivalent to certain provisions of existing law where the department generally regulates pesticide use.

This bill would instead require the Department of Pesticide Regulation to require that the application of pesticides or other pest control in connection with cannabis cultivation comply with the department's general regulation of pesticide use. Because the violation of those provisions and regulations adopted pursuant to those provisions is a crime, this bill would impose a state-mandated local program.

(20) AUMA requires the Department of Food and Agriculture, in conjunction with the bureau, to establish a certified organic designation and organic certification program for adult-use cannabis and cannabis products, as prescribed.

This bill would eliminate the role of the bureau in establishing the designation and program. The bill would require, not later than January 1, 2021, the department to establish a program for cannabis comparable to the federal National Organic Program and the California Organic Food and Farming Act. The bill would require the department to be the sole determiner of organic designation and certification, unless the federal National Organic Program authorizes organic designation and certification for cannabis, in which case the department's authority would be repealed on the following January 1. The bill would prohibit a person from representing, selling, or offering any cannabis or cannabis products as organic or with the designation or certification established by the department, except as provided.

(21) AUMA requires the bureau to establish standards for recognition of a particular appellation of origin applicable to adult-use cannabis grown or cultivated in a certain geographical area in California.

This bill would transfer this responsibility to the Department of Food and Agriculture and require the department to begin establishing standards to designate a county of origin for cannabis no later than January 1, 2018. The bill would require the department, no later than January 1, 2021, to establish a process by which licensed cultivators may establish appellations of standards, practices, and varieties applicable to cannabis grown in a certain geographical area in California.

(22) Existing law requires each licensed cultivator of adult-use cannabis to ensure that the licensed premises do not pose an unreasonable risk of fire or combustion and requires each cultivator to ensure that certain property is carefully maintained to avoid unreasonable or dangerous risk to the property or others.

This bill would repeal and replace these provisions with a requirement that specific provisions concerning building standards relating to fire and panic safety and regulations of the State Fire Marshal, including a requirement that the chief of any city, county, or city and county fire department or district providing fire protection services, or a Designated Campus Fire Marshal, and their authorized representatives, enforce these standards and regulations in their respective areas, also apply to licensees under MAUCRSA. By increasing the duties of local agencies, this bill would impose a state-mandated local program.

(23) MCRSA requires the Department of Food and Agriculture, in consultation with the bureau, to establish a track and trace program for reporting the movement of medical cannabis items throughout the distribution chain that utilizes a unique identifier and secure packaging and is capable of providing certain information. AUMA requires the Department of Food and Agriculture, in consultation with the bureau and the State Board of Equalization, to expand the track and trace program provided for under MCRSA to include the reporting of the movement of adult-use cannabis and cannabis products throughout the distribution chain and to provide the amount of cultivation tax due.

This bill would instead require the establishment of a track and trace program to be the responsibility of the Department of Food and Agriculture, in consultation with the bureau. The bill would authorize a city, county, or city and county to administer a unique identifier and associated identifying information but would prohibit this from supplanting the Department of Food and Agriculture's track and trace program.

(24) MCRSA requires the Department of Food and Agriculture, in consultation with the State Board of Equalization, to create an electronic database containing the electronic shipping manifests to facilitate the administration of the track and trace program. MCRSA requires the information received and contained in records kept by the Department of Food and Agriculture or licensing authorities for the purposes of administering the medical cannabis track and trace program to be confidential and generally prohibits information from being disclosed pursuant to the California Public Records Act.

This bill would expand this exemption to the California Public Records Act to also apply to information received in the track and trace program for reporting the movement of adult-use cannabis and cannabis products.

(25) AUMA and MCRSA require licensees to maintain records of commercial cannabis activity, as specified. Existing law requires the State Department of Public Health to establish and maintain a voluntary program for the issuance of identification cards to qualified patients who have a physician's recommendation for medical cannabis. Existing law requires the counties to process applications and maintain records for the identification card program.

Existing law, the Confidentiality of Medical Information Act, prohibits providers of health care, health care service plans, contractors, employers, and 3rd-party administrators, among others, from disclosing medical information, as defined, without the patient's written authorization, subject to certain exceptions, as specified. A violation of the act resulting in economic loss or personal injury to a patient is a misdemeanor and subjects the violating party to liability for specified damages and administrative fines and penalties.

Existing law deems information identifying the names of patients, their medical conditions, or the names of their primary caregivers, received and contained in records of the State Department of Public Health and by any county public health department to be "medical information" within the meaning of the Confidentiality of Medical Information Act, and prohibits the department or any county public health department from disclosing this information, except as specified. Existing law requires information identifying the names of patients, their medical conditions, or the names of their primary caregivers, received and contained in records kept by the Bureau of Marijuana Control for the purposes of administering MCRSA to be maintained in accordance with state law relating to patient access to his or her health records, the Confidentiality of Medical Information Act, and other state and federal laws relating to confidential patient information.

This bill would deem information contained in a physician's recommendation to use cannabis for medical purposes to be "medical information" within the meaning of the Confidentiality of Medical Information Act, and would prohibit a licensee from disclosing this information, except as specified. By expanding the scope of a crime, this bill would create a state-mandated local program.

(26) AUMA authorizes the Department of Food and Agriculture to charge a fee to cover the reasonable costs of issuing the unique identifier and monitoring, tracking, and inspecting each adult-use cannabis plant.

This bill would authorize the Secretary of Food and Agriculture to enter into a cooperative agreement with a county agricultural commissioner or other state or local agency to assist the department in implementing certain responsibilities pertaining to the cultivation of cannabis and would require the secretary to provide notice of any cooperative agreement, as prescribed. The bill requires the Department of Food and Agriculture under a cooperative agreement to provide reimbursement from the fees collected to a county

agricultural commissioner, state agency, or local agency. The bill prohibits the secretary from delegating authority to issue cultivation licenses to a county agricultural commissioner, a local agency, or another state agency.

(27) Existing law, the California Industrial Hemp Farming Act, provides for the regulation of the growing and cultivation of industrial hemp under the Department of Food and Agriculture. AUMA provided that the bureau has authority to regulate and control plants and products that fit within the definition of industrial hemp but that are produced, processed, manufactured, tested, delivered, or otherwise handled under a license issued under the provisions of AUMA.

This bill would eliminate the authority of the bureau to regulate and control industrial hemp.

(28) Existing law, the Milk and Milk Products Act of 1947, regulates the production of milk and milk products in this state. The act specifies standards for butter. The act requires a license from the Secretary of Food and Agriculture for each separate milk products plant or place of business dealing in, receiving, manufacturing, freezing, or processing milk, or any milk product, or manufacturing, freezing, or processing imitation ice cream or imitation ice milk. Existing law exempts from the act butter purchased from a licensed milk products plant or retail location that is subsequently infused or mixed with medical cannabis at the premises or location that is not required to be licensed as a milk products plant.

This bill would also exempt butter that is subsequently infused or mixed with adult-use cannabis.

(29) Existing law permits 3 or more natural persons, a majority of whom are residents of this state, who are engaged in the production of certain products, including agricultural and farm products, to form a nonprofit cooperative association for specified purposes. Existing law imposes various requirements on the formation, reorganization, operation, and dissolution on the associations.

This bill would authorize 3 or more natural persons, who are engaged in the cultivation of any cannabis product, to form an association, defined as a cannabis cooperative for specified purposes. The bill would impose similar requirements on the formation, reorganization, operation, and dissolution on these associations.

(30) Existing law specifies the duties and powers of the Commissioner of the California Highway Patrol.

This bill would require the commissioner to appoint, and serve as the chairperson of, an impaired driving task force, with specified membership, to develop recommendations for best practices, protocols, proposed legislation, and other policies that will address the issue of impaired driving, as specified. The bill would require the task force, by January 1, 2021, to report to the Legislature its policy recommendations and the steps that state agencies are taking regarding impaired driving.

(31) Existing law makes it an infraction punishable by a fine not exceeding \$100 for a person to possess not more than one ounce of cannabis

while driving a motor vehicle, as specified, unless otherwise authorized by law.

This bill would repeal that provision and instead make it an infraction punishable by a fine not exceeding \$100 for a person to possess a receptacle containing cannabis or cannabis product that has been opened, or a seal broken, or to possess loose cannabis flower not in a container, while driving a motor vehicle, as specified, unless the receptacle is in the trunk of the vehicle or the person is a qualified patient carrying a current identification card or a physician's recommendation and the cannabis or cannabis product is contained in a container or receptacle that is either sealed, resealed, or closed. By creating a new crime, this bill would impose a state-mandated local program.

(32) This bill would make a variety of conforming and related changes.

(33) This bill would provide that its provisions are severable.

(34) Existing constitutional provisions require that a statute that limits the right of access to the meetings of public bodies or the writings of public officials and agencies be adopted with findings demonstrating the interest protected by the limitation and the need for protecting that interest.

This bill would make legislative findings to that effect.

(35) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

(36) AUMA authorizes the Legislature to amend its provisions by a $\frac{2}{3}$ vote of each house if the amendment furthers its purposes and intent.

This bill would state that the bill furthers the purposes and intent of AUMA for specified reasons.

(37) This bill would declare that it is to take effect immediately as a bill providing for appropriations related to the Budget Bill.

Appropriation: yes.

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares as follows:

(a) In November 1996, voters approved Proposition 215, which decriminalized the use of medicinal cannabis in California. Since the proposition was passed, most, if not all the regulation has been left to local governments.

(b) In 2015, California enacted three bills—Assembly Bill 243 (Wood, Chapter 688 of the Statutes of 2015); Assembly Bill 266 (Bonta, Chapter 689 of the Statutes of 2015); and Senate Bill 643 (McGuire, Chapter 719

of the Statutes of 2015)—that collectively established a comprehensive state regulatory framework for the licensing and enforcement of cultivation, manufacturing, retail sale, transportation, storage, delivery, and testing of medicinal cannabis in California. This regulatory scheme is known as the Medical Cannabis Regulation and Safety Act (MCRSA).

(c) In November 2016, voters approved Proposition 64, the Adult Use of Marijuana Act (AUMA). Under Proposition 64, adults 21 years of age or older may legally grow, possess, and use cannabis for nonmedicinal purposes, with certain restrictions. In addition, beginning on January 1, 2018, AUMA makes it legal to sell and distribute cannabis through a regulated business.

(d) Although California has chosen to legalize the cultivation, distribution, and use of cannabis, it remains an illegal Schedule I controlled substance under federal law. The intent of Proposition 64 and MCRSA was to ensure a comprehensive regulatory system that takes production and sales of cannabis away from an illegal market and curtails the illegal diversion of cannabis from California into other states or countries.

(e) Cannabis is cultivated in all 50 states however; the majority of domestically produced cannabis comes from California. In 2014, the United States Drug Enforcement Agency's Domestic Cannabis Eradication Suppression Program eradicated 4.3 million plants in the United States; 2.68 million of which were grown in California. Much of the cannabis grown in the state is grown for exportation purposes. To prevent illegal production and avoid illegal diversion to other states, California must place strict limits on cultivation.

(f) In order to strictly control the cultivation, processing, manufacturing, distribution, testing, and sale of cannabis in a transparent manner that allows the state to fully implement and enforce a robust regulatory system, licensing authorities must know the identity of those individuals who have a significant financial interest in a licensee, or who can direct its operation. Without this knowledge, regulators would not know if an individual who controlled one licensee also had control over another. To ensure accountability and preserve the state's ability to adequately enforce against all responsible parties the state must have access to key information.

(g) So that state entities can implement the voters' intent to issue licenses beginning January 1, 2018, while avoiding duplicative costs and inevitable confusion among licensees, regulatory agencies, and the public and ensuring a regulatory structure that prevents access to minors, protects public safety, public health and the environment, as well as maintaining local control, it is necessary to provide for a single regulatory structure for both medicinal and adult-use cannabis and provide for temporary licenses to those applicants that can show compliance with local requirements.

(h) Before denying a license and creating arbitrary barriers to entry into the legal regulated marketplace, it is the intent of the state to compile data that will inform how to best craft licensure policies that will prevent the proliferation of the illegal market while allowing a balanced regulatory scheme that allows legitimate businesses that comply with local standards

to succeed. This will also permit licensing entities to issue licenses in a more timely manner.

(i) The United States Environmental Protection Agency has not established appropriate pesticide tolerances for, or permitted the registration and lawful use of, pesticides on cannabis crops intended for human consumption pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 136 et seq.).

(j) The use of pesticides is not adequately regulated due to the omissions in federal law, and cannabis cultivated in California for California patients can and often does contain pesticide residues.

(k) Lawful California medical cannabis growers and caregivers urge the Department of Pesticide Regulation to provide guidance, in absence of federal guidance, on whether the pesticides currently used at most cannabis cultivation sites are actually safe for use on cannabis intended for human consumption.

SEC. 2. Chapter 3.5 (commencing with Section 19300) of Division 8 of the Business and Professions Code is repealed.

(b) The advisory committee members shall include, but not be limited to, representatives of the cannabis industry, including medicinal cannabis, representatives of labor organizations, appropriate state and local agencies, persons who work directly with racially, ethnically, and economically diverse

populations, public health experts, and other subject matter experts, including representatives from the Department of Alcoholic Beverage Control, with expertise in regulating commercial activity for adult-use intoxicating substances. The advisory committee members shall be determined by the director.

(c) Commencing on January 1, 2019, the advisory committee shall publish an annual public report describing its activities including, but not limited to, the recommendations the advisory committee made to the licensing authorities during the immediately preceding calendar year and whether those recommendations were implemented by the licensing authorities.

The disciplinary

proceedings under this chapter shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and the director of each licensing authority shall have all the powers granted therein.

(b) A licensing authority may suspend or revoke a license when a local agency has notified the licensing authority that a licensee within its jurisdiction is in violation of state rules and regulations relating to commercial cannabis activities, and the licensing authority, through an investigation, has determined that the violation is grounds for suspension or revocation of the license.

(c) Each licensing authority may take disciplinary action against a licensee for any violation of this division when the violation was committed by the licensee's officers, directors, owners, agents, or employees while acting on behalf of the licensee or engaged in commercial cannabis activity.

(b) Except as provided in subdivision (a), in all appeals, the panel shall enter an order either affirming or reversing the decision of the licensing authority. When the order reverses the decision of the licensing authority, the panel may direct the reconsideration of the matter in the light of its order and may direct the licensing authority to take such further action as is specially enjoined upon it by law, but the order shall not limit or control in any way the discretion vested by law in the licensing authority.

Examples of such a designation include, but are not limited to, "A-Type 1" or "M-Type 1." Except as specifically specified in this division, the requirements for A-licenses and M-licenses shall be the same. (3) Refusal by the licensing authority to issue or extend a temporary license shall not entitle the applicant to a hearing or appeal of the decision. Chapter 2 (commencing with Section 480) of Division 1.5 and Chapter 4 (commencing with Section 26040) of this division shall not apply to temporary licenses.

(4) A temporary license does not obligate the licensing authority to issue a nontemporary license nor does the temporary license create a vested right

in the holder to either an extension of the temporary license or to the granting of a subsequent nontemporary license.

(c) This section shall remain in effect only until January 1, 2019, and as of that date is repealed.

SEC. 33. Section 26051 of the Business and Professions Code is repealed.

For purposes of this section “excessive concentration” applies when either of the following conditions exist:

(1) The ratio of a licensee to population in the census tract or census division in which the applicant premises are located exceeds the ratio of licensees to population in the county in which the applicant premises are located, unless denial of the application would unduly limit the development of the legal market so as to perpetuate the illegal market for cannabis or cannabis products.

(2) The ratio of retail licenses, microbusiness licenses, or licenses under Section 26070.5 to the population in the census tract, census division, or jurisdiction exceeds that allowable by local ordinance adopted under Section 26200.

- (4) Sell any cannabis or cannabis products at less than cost for the purpose of injuring competitors, destroying competition, or misleading or deceiving purchasers or prospective purchasers.
- (5) Discriminate between different sections, communities, or cities or portions thereof, or between different locations in those sections,

communities, or cities or portions thereof in this state, by selling or furnishing cannabis or cannabis products at a lower price in one section, community, or city or any portion thereof, or in one location in that section, community, or city or any portion thereof, than in another, for the purpose of injuring competitors or destroying competition.

(b) The licensing authorities shall request that local jurisdictions identify for the licensing authorities potential applicants for licensure based on the applicants' prior operation in the local jurisdiction in compliance with state law, including the Compassionate Use Act of 1996 (Section 11362.5 of the Health and Safety Code) and its implementing laws, and any applicable local laws.

(c) In addition to or in lieu of the information described in subdivision (b), an applicant may furnish other evidence as deemed appropriate by the licensing authority to demonstrate operation in compliance with the Compassionate Use Act of 1996 (Section 11362.5 of the Health and Safety Code). The licensing authorities may accept such evidence to demonstrate eligibility for the priority provided for in subdivision (a).

(d) This section shall cease to be operative on December 31, 2019, unless otherwise provided by law.

(c) A licensee shall not change or alter the premises in a manner which materially or substantially alters the premises, the usage of the premises, or the mode or character of business operation conducted from the premises, from the plan contained in the diagram on file with the application, unless and until written approval by the licensing authority has been obtained. For purposes of this section, material or substantial physical changes of the premises, or in the usage of the premises, shall include, but not be limited to, a substantial increase or decrease in the total area of the licensed premises previously diagrammed, or any other physical modification resulting in substantial change in the mode or character of business operation.

(d) Licensing authorities shall not approve an application for a state license under this division if approval of the state license will violate the provisions of any local ordinance or regulation adopted in accordance with Section 26200.

(e) An applicant may voluntarily provide proof of a license, permit, or other authorization from the local jurisdiction verifying that the applicant is in compliance with the local jurisdiction.

(f) (1) A local jurisdiction shall provide to the bureau a copy of any ordinance or regulation related to commercial cannabis activity and the name and contact information for the person who will serve as the contact for state licensing authorities regarding commercial cannabis activity within the jurisdiction. If a local jurisdiction does not provide a contact person, the bureau shall assume that the clerk of the legislative body of the local jurisdiction is the contact person.

(2) Whenever there is a change in a local ordinance or regulation adopted pursuant to Section 26200 or a change in the contact person for the jurisdiction, the local jurisdiction shall provide that information to the bureau.

(3) The bureau shall share the information required by this subdivision with the other licensing authorities.

(g) (1) The licensing authority shall deny an application for a license under this division for a commercial cannabis activity that the local jurisdiction has notified the bureau is prohibited in accordance with subdivision (f). The licensing authority shall notify the contact person for the local jurisdiction of each application denied due to the local jurisdictions indication that the commercial cannabis activity for which a license is sought is prohibited by a local ordinance or regulation.

(2) Prior to issuing a state license under this division for any commercial cannabis activity:

(A) The licensing authority shall notify the contact person for the local jurisdiction of the receipt of an application for commercial cannabis activity within their jurisdiction.

(E) At any time after expiration of the 60-business-day period set forth in subparagraph (D), the local jurisdiction may provide written notification to the licensing authority that the applicant or licensee is not in compliance with a local ordinance or regulation adopted in accordance with Section 26200. Upon receiving this notification, the licensing authority shall not presume that the applicant or licensee has complied with all local ordinances and regulations adopted in accordance with Section 26200, and may commence disciplinary action in accordance with Chapter 3 (commencing with Section 26030). If the licensing authority does not take action against the licensee before the time of the renewal of the license, the license shall not be renewed until and unless the local jurisdiction notifies the licensing authority that the licensee is once again in compliance with local ordinances.

(F) A presumption by a licensing authority pursuant to this paragraph that an applicant has complied with all local ordinances and regulations adopted in accordance with Section 26200 shall not prevent, impair, or preempt the local government from enforcing all applicable local ordinances or regulations against the applicant, nor shall the presumption confer any right, vested or otherwise, upon the applicant to commence or continue operating in any local jurisdiction except in accordance with all local ordinances or regulations.

(3) For purposes of this section, “notification” includes written notification or access by a licensing authority to a local jurisdiction’s registry, database, or other platform designated by a local jurisdiction, containing information specified by the licensing authority, on applicants to determine local compliance.

(h) Without limiting any other statutory exemption or categorical exemption, Division 13 (commencing with Section 21000) of the Public Resources Code does not apply to the adoption of an ordinance, rule, or regulation by a local jurisdiction that requires discretionary review and approval of permits, licenses, or other authorizations to engage in commercial cannabis activity. To qualify for this exemption, the discretionary review in any such law, ordinance, rule, or regulation shall include any applicable environmental review pursuant to Division 13 (commencing with Section 21000) of the Public Resources Code. This subdivision shall become inoperative on July 1, 2019.

26226.3. The bylaws may provide that the territory in which the association has members shall be divided into districts, and that the directors shall be elected by representatives or advisers, who themselves have been elected by the members or stockholders from the several territorial districts. If the bylaws divide the territory into districts for the election of representatives or advisers who elect the directors, the bylaws shall specify the number of representatives or advisers to be elected by each district and the manner and method of reapportioning the representatives or advisers and of redistricting the territory that is covered by the association.

If the bylaws provide for an election of directors by districts, the vacancy shall be filled either by the election of a director from the district in which the vacancy occurs or by the board of directors calling a special meeting of the members or stockholders in that district to fill the vacancy.

26226.8. (a) The directors shall elect a president, one or more vice presidents, a secretary, a treasurer, and such other officers as may be prescribed by the bylaws. Any two or more offices, except those of president and secretary, may be held by the same person.

In such case, the secretary shall perform the usual accounting duties of the treasurer, except that the funds shall be deposited only as and where authorized by the board of directors.

26226.9. (a) A member may bring charges against an officer or director by filing them in writing with the secretary of the association, together with a petition that is signed by 5 percent of the members, which requests the removal of the officer or director in question. (b) That which is conducive to, or expedient for, the interest or benefit of the association.

(c) Contract accordingly.

(d) Exercise and possess all powers, rights, and privileges that are necessary or incidental to the purposes for which the association is organized or to the activities in which it is engaged.

(e) Exercise any other rights, powers, and privileges that are granted by the laws of this state to ordinary corporations, except such as are inconsistent with the express provisions of this chapter.

26227.75. An association may use or employ any of its facilities for any purpose, provided the proceeds that arise from such use and employment shall go to reduce the cost of operation for its members. The cannabis products that are handled for, or the services, machinery, equipment, or supplies or facilities that are furnished to, nonmembers shall not, however, exceed in value the cannabis products that are handled for, or the services, merchandise, or facilities that are supplied to, members during the same period.

26227.8. (a) An association may organize, form, operate, own, control, have an interest in, own stock of, or be a member of any other association, with or without capital stock, that is engaged in growing, harvesting, curing, drying, trimming, packing, grading, storing, or handling of any cannabis product that is handled by the association, or the byproducts of the cannabis product.

(b) Any two or more associations that are organized pursuant to this section may be merged into one constituent association or consolidated into a new association. (b) Any two or more associations may, by agreement between them, unite in employing and using, or may separately employ and use, the same personnel, methods, means, and agencies for carrying on and conducting their respective business.

Article 8. Financial Provisions

26228. An association is not subject in any manner to the terms of the Corporate Securities Law (Division 1 (commencing with Section 25000) of Title 4 of the Corporations Code), and any association may issue its membership certificates or stock or other securities as provided in this chapter without the necessity of any qualification under that law.

26228.1. If an association issues nonpar value stock, the issuance of the stock shall be governed by the terms of all general laws that cover the issuance of nonpar value stock in domestic corporations.

26228.2. If an association with preferred shares of stock purchases the stock or any property, or any interest in any property of any person, it may discharge the obligations that are so incurred, wholly or in part, by exchanging for the acquired interest, shares of its preferred stock to an amount that at par value would equal the fair market value of the stock or interest so purchased, as determined by the board of directors. In that case, the transfer to the association of the stock or interest that is purchased is equivalent to payment in cash for the shares of stock that are issued.

26228.3. The board of directors of every association shall cause to be sent to the members of the association not later than 120 days after the close of the fiscal or calendar year an annual report of the operations of the association, unless the report is expressly dispensed with in the bylaws. If required by the bylaws, interim reports of the operations of the association for the three-month, six-month, or nine-month periods of the current fiscal year of the association shall be furnished to the members of the association. Such annual report and any such interim reports shall include a balance sheet as of such closing date. Such financial statement shall be prepared from, and be in accordance with, the books. It shall be prepared in a form that is sanctioned by sound accounting practice for the association or approved by a duly certified public accountant or a public accountant.

Article 9. Members

26229. Under the terms and conditions that are prescribed in the bylaws adopted by it, an association may admit as members or issue common stock only to persons engaged in the cultivation of a cannabis product that is to be handled by or through the association.

26229.1. If a member of a nonstock association is other than a natural person, the member may be represented by any individual, associate, officer, or manager or member of it, who is duly authorized in writing.

26229.2. Any association may become a member or stockholder of any other association.

26229.3. If a member of an association that is established without shares of stock has paid his membership fee in full, he or she shall receive a certificate of membership.

26229.4. An association shall not issue a certificate for stock to a member until it has been fully paid for. The promissory notes of the members may be accepted by the association as full or partial payment. The association shall hold the stock as security for the payment of the note, but the retention as security does not affect the member's right to vote.

26229.5. An association, in its bylaws, may limit the amount of common stock that any member may own.

26229.6. The bylaws shall prohibit the transfer of the common stock or membership certificates of the associations to a person that is not qualified to be a shareholder or member as specified in this chapter. These restrictions shall be printed upon every certificate of stock or membership that is subject to them.

26229.7. The association may, at any time, as specified in the bylaws, except when the debts of the association exceed 50 percent of its assets, buy in or purchase its common stock at the book value of the common stock, as conclusively determined by the board of directors, and pay for it in cash within one year thereafter.

26229.8. A member or stockholder is not liable for the debts of the association to an amount that exceeds the sum that remains unpaid on his membership fee or his subscription to the capital stock, including any unpaid balance on any promissory note that is given in payment of the membership fee or the subscription to the capital stock.

Article 10. Marketing Contracts

26230. The association and its members may make and execute marketing contracts that require the members to sell, for any period of time, but not over 15 years, all or a specified part of a cannabis product exclusively to or through the association, or a facility that is created by the association. If the members contract a sale to the association, title to the cannabis product passes absolutely and unreservedly, except for recorded liens, to the association upon delivery or at another specified time that is expressly and definitely agreed in the contract.

26230.1. Notwithstanding any provisions of the Civil Code, a contract that is entered into by a member or stockholder of an association that provides for the delivery to the association of a cannabis product that is produced or acquired by the member or stockholder may be specifically enforced by the association to secure the delivery to it of the cannabis product.

26230.2. The bylaws or a marketing contract may fix, as liquidated damages, specific sums to be paid by the member or stockholder to the association upon the breach by him or her of any provision of the marketing contract regarding the sale or delivery or withholding of a cannabis product and may provide that the member will pay all costs, premiums for bonds, expenses, and fees, if any action is brought upon the contract by the association. These provisions are valid and enforceable in the courts of this

state. The clauses that provide for liquidated damages are enforceable as such and shall not be regarded as penalties.

26230.3. If there is a breach or threatened breach of a marketing contract by a member, the association shall be entitled to an injunction to prevent the further breach of the contract and to a decree of specific performance of the contract. Pending the adjudication of the action and upon filing a verified complaint that shows the breach or threatened breach, and upon filing a sufficient bond, the association shall be entitled to a temporary restraining order and preliminary injunction against the member.

Article 11. Reorganization of Corporations Organized Pursuant to Other Laws

26231. A corporation that is organized or existing pursuant to any law except Title 23 (commencing with Section 653aa) of Part 4 of Division 1 of the Civil Code may be brought under the provisions of this chapter by amending its articles of incorporation, in the manner that is prescribed by the general corporation laws, to conform to this chapter. 26231.1. Articles of incorporation shall be deemed to conform to this chapter within the meaning of Section 26231 if it clearly appears from the articles of incorporation that the corporation desires to be subject to, and to be organized, exist, and function pursuant to this chapter.

26231.2. If the amended articles conform, as provided in Section 26231.1, provisions in the articles of incorporation that appeared in the original articles or some previous amended articles, are ineffective if, and to the extent that, they are inapplicable to, or inconsistent with, this chapter.

(ii) Each region of the department shall log the notifications of activities where no agreement is required. The log shall list the date the notification was received by the department, a brief description of the proposed activity, and the location of the activity. (C) The department notifies the entity in writing that the exemption applies to the cultivation authorized by the license or renewed license.

(2) The department shall notify the entity in writing whether the exemption in paragraph (1) applies to the cultivation authorized by the license or renewed license within 60 days from the date that the notification is complete and the fee has been paid.

(3) If an entity receives an exemption pursuant to this subdivision and fails to comply with any of the requirements described in Section 26060.1 of the Business and Professions Code that are included in the license, the failure shall constitute a violation under this section, and the department shall notify the Department of Food and Agriculture of any enforcement action taken.

The application shall be submitted upon a form supplied by the Department of Justice and shall be accompanied by a fee, which shall be established by the department in an amount which will defray the cost of administering this subdivision and costs incurred by the state under subdivision (c), but which shall not exceed thirty-seven dollars and fifty cents (\$37.50). The application form may be made available at every local police or sheriff's department and from the Department of Justice and may require that information which the department determines is necessary for purposes of identification.

The department may request, but not require, the applicant to include a self-administered fingerprint upon the application. If the department is unable to sufficiently identify the applicant for purposes of this subdivision without the fingerprint or without additional fingerprints, it shall so notify the applicant and shall request the applicant to submit any fingerprints which may be required to effect identification, including a complete set if necessary, or, alternatively, to abandon the application and request a refund of all or a portion of the fee submitted with the application, as provided in this section. If the applicant fails or refuses to submit fingerprints in accordance with the department's request within a reasonable time which shall be established by the department, or if the applicant requests a refund of the fee, the department shall promptly mail a refund to the applicant at the address specified in the application or at any other address which may be specified by the applicant. However, if the department has notified the applicant that election to abandon the application will result in forfeiture of a specified amount which is a portion of the fee, the department may retain a portion

of the fee which the department determines will defray the actual costs of processing the application, provided the amount of the portion retained shall not exceed ten dollars (\$10).

Upon receipt of a sufficient application, the Department of Justice shall destroy records of the department, if any, pertaining to the arrest or conviction in the manner prescribed by subdivision (c) and shall notify the Federal Bureau of Investigation, the law enforcement agency which arrested the applicant, and, if the applicant was convicted, the probation department which investigated the applicant and the Department of Motor Vehicles, of the application.

(c) Destruction of records of arrest or conviction pursuant to subdivision (a) or (b) shall be accomplished by permanent obliteration of all entries or notations upon the records pertaining to the arrest or conviction, and the record shall be prepared again so that it appears that the arrest or conviction never occurred. However, where (1) the only entries upon the record pertain to the arrest or conviction and (2) the record can be destroyed without necessarily effecting the destruction of other records, then the document constituting the record shall be physically destroyed.

(d) Notwithstanding subdivision (a) or (b), written transcriptions of oral testimony in court proceedings and published judicial appellate reports are not subject to this section. (b) (1) Any person who is to be released on parole from a jail, state prison, school, road camp, or other state or local institution of confinement and who is eligible to use medicinal cannabis pursuant to Section 11362.5 may request that he or she be allowed to use medicinal cannabis during the period he or she is released on parole. A parolee's written conditions of parole shall reflect whether or not a request for a modification of the conditions of his or her parole to use medicinal cannabis was made, and whether the request was granted or denied.

(2) During the period of the parole, where a physician recommends that the parolee use medicinal cannabis, the parolee may request a modification of the conditions of the parole to authorize the use of medicinal cannabis.

(3) Any parolee whose request to use medicinal cannabis while on parole was denied may pursue an administrative appeal of the decision. Any decision on the appeal shall be in writing and shall reflect the reasons for the decision.

(4) The administrative consideration of the modification request authorized by this subdivision shall comply with the requirements of this section.

SEC. 146. Section 11362.8 of the Health and Safety Code is amended to read:

11362.8. A professional licensing board shall not impose a civil penalty or take other disciplinary action against a licensee based solely on the fact that the licensee has performed acts that are necessary or appropriate to carry out the licensee's role as a designated primary caregiver to a person who is a qualified patient or who possesses a lawful identification card issued pursuant to Section 11362.72. However, this section shall not apply to acts performed by a physician relating to the discussion or recommendation of the medical use of cannabis to a patient. These discussions or recommendations, or both, shall be governed by Section 11362.5.

SEC. 147. Section 11362.81 of the Health and Safety Code is amended to read:

11362.81. (a) A person specified in subdivision (b) shall be subject to the following penalties:

(1) For the first offense, imprisonment in the county jail for no more than six months or a fine not to exceed one thousand dollars (\$1,000), or both.

(2) For a second or subsequent offense, imprisonment in the county jail for no more than one year, or a fine not to exceed one thousand dollars (\$1,000), or both.

(b) Subdivision (a) applies to any of the following:

(1) A person who fraudulently represents a medical condition or fraudulently provides any material misinformation to a physician, county health department or the county's designee, or state or local law enforcement agency or officer, for the purpose of falsely obtaining an identification card.

(2) A person who steals or fraudulently uses any person's identification card in order to acquire, possess, cultivate, transport, use, produce, or distribute cannabis.

(3) A person who counterfeits, tampers with, or fraudulently produces an identification card.

(4) A person who breaches the confidentiality requirements of this article to information provided to, or contained in the records of, the department or of a county health department or the county's designee pertaining to an identification card program.

(c) In addition to the penalties prescribed in subdivision (a), a person described in subdivision (b) may be precluded from attempting to obtain, or obtaining or using, an identification card for a period of up to six months at the discretion of the court.

(d) In addition to the requirements of this article, the Attorney General shall develop and adopt appropriate guidelines to ensure the security and nondiversion of cannabis grown for medicinal use by patients qualified under the Compassionate Use Act of 1996.

SEC. 148. Section 11362.83 of the Health and Safety Code is amended to read:

11362.83. Nothing in this article shall prevent a city or other local governing body from adopting and enforcing any of the following:

(a) Adopting local ordinances that regulate the location, operation, or establishment of a medicinal cannabis cooperative or collective.

(b) The civil and criminal enforcement of local ordinances described in subdivision (a).

(c) Enacting other laws consistent with this article.

SEC. 149. Section 11362.85 of the Health and Safety Code is amended to read:

11362.85. Upon a determination by the California Attorney General that the federal schedule of controlled substances has been amended to reclassify or declassify cannabis, the Legislature may amend or repeal the provisions of this code, as necessary, to conform state law to such changes in federal law.

SEC. 150. Section 11362.9 of the Health and Safety Code is amended to read:

11362.9. (a) (1) It is the intent of the Legislature that the state commission objective scientific research by the premier research institute of the world, the University of California, regarding the efficacy and safety of administering cannabis as part of medical treatment. If the Regents of the University of California, by appropriate resolution, accept this responsibility, the University of California shall create a program, to be known as the California Cannabis Research Program. Whenever “California Marijuana Research Program” appears in any statute, regulation, or contract, or in any other code, it shall be construed to refer to the California Cannabis Research Program.

(2) The program shall develop and conduct studies intended to ascertain the general medical safety and efficacy of cannabis and, if found valuable, shall develop medical guidelines for the appropriate administration and use of cannabis. The studies may include studies to ascertain the effect of cannabis on motor skills.

(b) The program may immediately solicit proposals for research projects to be included in the cannabis studies. Program requirements to be used when evaluating responses to its solicitation for proposals, shall include, but not be limited to, all of the following:

(1) Proposals shall demonstrate the use of key personnel, including clinicians or scientists and support personnel, who are prepared to develop a program of research regarding cannabis’ general medical efficacy and safety.

(2) Proposals shall contain procedures for outreach to patients with various medical conditions who may be suitable participants in research on cannabis.

(3) Proposals shall contain provisions for a patient registry.

(4) Proposals shall contain provisions for an information system that is designed to record information about possible study participants, investigators, and clinicians, and deposit and analyze data that accrues as part of clinical trials.

(5) Proposals shall contain protocols suitable for research on cannabis, addressing patients diagnosed with acquired immunodeficiency syndrome

(AIDS) or human immunodeficiency virus (HIV), cancer, glaucoma, or seizures or muscle spasms associated with a chronic, debilitating condition. The proposal may also include research on other serious illnesses, provided that resources are available and medical information justifies the research.

(6) Proposals shall demonstrate the use of a specimen laboratory capable of housing plasma, urine, and other specimens necessary to study the concentration of cannabinoids in various tissues, as well as housing specimens for studies of toxic effects of cannabis.

(7) Proposals shall demonstrate the use of a laboratory capable of analyzing cannabis, provided to the program under this section, for purity and cannabinoid content and the capacity to detect contaminants.

(c) In order to ensure objectivity in evaluating proposals, the program shall use a peer review process that is modeled on the process used by the National Institutes of Health, and that guards against funding research that is biased in favor of or against particular outcomes. Peer reviewers shall be selected for their expertise in the scientific substance and methods of the proposed research, and their lack of bias or conflict of interest regarding the applicants or the topic of an approach taken in the proposed research. Peer reviewers shall judge research proposals on several criteria, foremost among which shall be both of the following:

(1) The scientific merit of the research plan, including whether the research design and experimental procedures are potentially biased for or against a particular outcome.

(2) Researchers' expertise in the scientific substance and methods of the proposed research, and their lack of bias or conflict of interest regarding the topic of, and the approach taken in, the proposed research.

(d) If the program is administered by the Regents of the University of California, any grant research proposals approved by the program shall also require review and approval by the research advisory panel.

(e) It is the intent of the Legislature that the program be established as follows:

(1) The program shall be located at one or more University of California campuses that have a core of faculty experienced in organizing multidisciplinary scientific endeavors and, in particular, strong experience in clinical trials involving psychopharmacologic agents. The campuses at which research under the auspices of the program is to take place shall accommodate the administrative offices, including the director of the program, as well as a data management unit, and facilities for storage of specimens.

(2) When awarding grants under this section, the program shall utilize principles and parameters of the other well-tested statewide research programs administered by the University of California, modeled after programs administered by the National Institutes of Health, including peer review evaluation of the scientific merit of applications.

(3) The scientific and clinical operations of the program shall occur, partly at University of California campuses, and partly at other postsecondary institutions, that have clinicians or scientists with expertise to conduct the

required studies. Criteria for selection of research locations shall include the elements listed in subdivision (b) and, additionally, shall give particular weight to the organizational plan, leadership qualities of the program director, and plans to involve investigators and patient populations from multiple sites.

(4) The funds received by the program shall be allocated to various research studies in accordance with a scientific plan developed by the Scientific Advisory Council. As the first wave of studies is completed, it is anticipated that the program will receive requests for funding of additional studies. These requests shall be reviewed by the Scientific Advisory Council.

(5) The size, scope, and number of studies funded shall be commensurate with the amount of appropriated and available program funding.

(f) All personnel involved in implementing approved proposals shall be authorized as required by Section 11604.

(g) Studies conducted pursuant to this section shall include the greatest amount of new scientific research possible on the medical uses of, and medical hazards associated with, cannabis. The program shall consult with the Research Advisory Panel analogous agencies in other states, and appropriate federal agencies in an attempt to avoid duplicative research and the wasting of research dollars.

(h) The program shall make every effort to recruit qualified patients and qualified physicians from throughout the state.

(i) The cannabis studies shall employ state-of-the-art research methodologies.

(j) The program shall ensure that all cannabis used in the studies is of the appropriate medical quality and shall be obtained from the National Institute on Drug Abuse or any other federal agency designated to supply cannabis for authorized research. If these federal agencies fail to provide a supply of adequate quality and quantity within six months of the effective date of this section, the Attorney General shall provide an adequate supply pursuant to Section 11478.

(k) The program may review, approve, or incorporate studies and research by independent groups presenting scientifically valid protocols for medical research, regardless of whether the areas of study are being researched by the committee.

(l) (1) To enhance understanding of the efficacy and adverse effects of cannabis as a pharmacological agent, the program shall conduct focused controlled clinical trials on the usefulness of cannabis in patients diagnosed with AIDS or HIV, cancer, glaucoma, or seizures or muscle spasms associated with a chronic, debilitating condition. The program may add research on other serious illnesses, provided that resources are available and medical information justifies the research. The studies shall focus on comparisons of both the efficacy and safety of methods of administering the drug to patients, including inhalational, tinctural, and oral, evaluate possible uses of cannabis as a primary or adjunctive treatment, and develop further information on optimal dosage, timing, mode of administration, and variations in the effects of different cannabinoids and varieties of cannabis.

(2) The program shall examine the safety of cannabis in patients with various medical disorders, including cannabis's interaction with other drugs, relative safety of inhalation versus oral forms, and the effects on mental function in medically ill persons.

(3) The program shall be limited to providing for objective scientific research to ascertain the efficacy and safety of cannabis as part of medical treatment, and should not be construed as encouraging or sanctioning the social or recreational use of cannabis.

(m) (1) Subject to paragraph (2), the program shall, prior to any approving proposals, seek to obtain research protocol guidelines from the National Institutes of Health and shall, if the National Institutes of Health issues research protocol guidelines, comply with those guidelines.

(2) If, after a reasonable period of time of not less than six months and not more than a year has elapsed from the date the program seeks to obtain guidelines pursuant to paragraph (1), no guidelines have been approved, the program may proceed using the research protocol guidelines it develops.

(n) In order to maximize the scope and size of the cannabis studies, the program may do any of the following:

(1) Solicit, apply for, and accept funds from foundations, private individuals, and all other funding sources that can be used to expand the scope or timeframe of the cannabis studies that are authorized under this section. The program shall not expend more than 5 percent of its General Fund allocation in efforts to obtain money from outside sources.

(2) Include within the scope of the cannabis studies other cannabis research projects that are independently funded and that meet the requirements set forth in subdivisions (a) to (c), inclusive. In no case shall the program accept any funds that are offered with any conditions other than that the funds be used to study the efficacy and safety of cannabis as part of medical treatment. Any donor shall be advised that funds given for purposes of this section will be used to study both the possible benefits and detriments of cannabis and that he or she will have no control over the use of these funds.

(o) (1) Within six months of the effective date of this section, the program shall report to the Legislature, the Governor, and the Attorney General on the progress of the cannabis studies.

(2) Thereafter, the program shall issue a report to the Legislature every six months detailing the progress of the studies. The interim reports required under this paragraph shall include, but not be limited to, data on all of the following:

(A) The names and number of diseases or conditions under study.

(B) The number of patients enrolled in each study by disease.

(C) Any scientifically valid preliminary findings.

(p) If the Regents of the University of California implement this section, the President of the University of California shall appoint a multidisciplinary Scientific Advisory Council, not to exceed 15 members, to provide policy guidance in the creation and implementation of the program. Members shall be chosen on the basis of scientific expertise. Members of the council shall

serve on a voluntary basis, with reimbursement for expenses incurred in the course of their participation. The members shall be reimbursed for travel and other necessary expenses incurred in their performance of the duties of the council.

(q) No more than 10 percent of the total funds appropriated may be used for all aspects of the administration of this section.

(r) This section shall be implemented only to the extent that funding for its purposes is appropriated by the Legislature in the annual Budget Act.

SEC. 151. Section 11364.5 of the Health and Safety Code is amended to read:

Each entrance to such a room or enclosure shall be signposted in reasonably visible and legible words to the effect that drug paraphernalia is kept, displayed or offered in such room or enclosure and that minors, unless accompanied by a parent or legal guardian, are excluded.

(b) Except as authorized by law, no owner, manager, proprietor or other person in charge of any room or enclosure, within any place of business, in which drug paraphernalia is kept, displayed or offered in any manner, sold, furnished, transferred or given away shall permit or allow any person under the age of 18 years to enter, be in, remain in or visit such room or enclosure unless that minor person is accompanied by one of his or her parents or by his or her legal guardian.

(c) Unless authorized by law, no person under the age of 18 years shall enter, be in, remain in, or visit any room or enclosure in any place of business in which drug paraphernalia is kept, displayed or offered in any manner, sold, furnished, transferred, or given away unless accompanied by one of his or her parents or by his or her legal guardian.

SEC. 152. Section 11470 of the Health and Safety Code is amended to read:

11470. The following are subject to forfeiture:

(a) All controlled substances which have been manufactured, distributed, dispensed, or acquired in violation of this division.

(b) All raw materials, products, and equipment of any kind which are used, or intended for use, in manufacturing, compounding, processing, delivering, importing, or exporting any controlled substance in violation of this division.

(c) All property except real property or a boat, airplane, or any vehicle which is used, or intended for use, as a container for property described in subdivision (a) or (b).

(d) All books, records, and research products and materials, including formulas, microfilm, tapes, and data which are used, or intended for use, in violation of this division.

(e) The interest of any registered owner of a boat, airplane, or any vehicle other than an implement of husbandry, as defined in Section 36000 of the Vehicle Code, which has been used as an instrument to facilitate the manufacture of, or possession for sale or sale of 14.25 grams or more of heroin, or a substance containing 14.25 grams or more of heroin, or 14.25 grams or more of a substance containing heroin, or 28.5 grams or more of Schedule I controlled substances except cannabis, peyote, or psilocybin; 10 pounds dry weight or more of cannabis, peyote, or psilocybin; or 28.5 grams or more of cocaine, as specified in paragraph (6) of subdivision (b) of Section 11055, cocaine base as specified in paragraph (1) of subdivision (f) of Section 11054, or methamphetamine; or a substance containing 28.5 grams or more of cocaine, as specified in paragraph (6) of subdivision (b) of Section 11055, cocaine base as specified in paragraph (1) of subdivision (f) of Section 11054, or methamphetamine; or 57 grams or more of a substance containing cocaine, as specified in paragraph (6) of subdivision (b) of Section 11055, cocaine base as specified in paragraph (1) of subdivision (f) of Section 11054, or methamphetamine; or 28.5 grams or more of Schedule II controlled substances. (f) All moneys, negotiable instruments, securities, or other things of value furnished or intended to be furnished by any person in exchange for a controlled substance, all proceeds traceable to such an exchange, and all moneys, negotiable instruments, or securities used or intended to be used to facilitate any violation of Section 11351, 11351.5, 11352, 11355, 11359, 11360, 11378, 11378.5, 11379, 11379.5, 11379.6, 11380, 11382, or 11383 of this code, or Section 182 of the Penal Code, or a felony violation of Section 11366.8 of this code, insofar as the offense involves manufacture, sale, possession for sale, offer for sale, or offer to manufacture, or conspiracy to commit at least one of those offenses, if the exchange, violation, or other conduct which is the basis for the forfeiture occurred within five years of the seizure of the property, or the filing of a petition under this chapter, or the issuance of an order of forfeiture of the property, whichever comes first.

(g) The real property of any property owner who is convicted of violating Section 11366, 11366.5, or 11366.6 with respect to that property. (2) The operation of the special vesting rule established by this subdivision shall be limited to circumstances where its application will not defeat the claim of any person, including a bona fide purchaser or encumbrancer who, pursuant to Section 11488.5, 11488.6, or 11489, claims an interest in the property seized, notwithstanding that the interest in the property being claimed was acquired from a defendant whose property interest would otherwise have been subject to divestment pursuant to this subdivision.

SEC. 153. Section 11478 of the Health and Safety Code is amended to read:

11478. Cannabis may be provided by the Attorney General to the heads of research projects which have been registered by the Attorney General, and which have been approved by the research advisory panel pursuant to Section 11480.

The head of the approved research project shall personally receipt for such quantities of cannabis and shall make a record of their disposition. The receipt and record shall be retained by the Attorney General. The head of the approved research project shall also, at intervals and in the manner required by the research advisory panel, report the progress or conclusions of the research project.

SEC. 154. Section 11479 of the Health and Safety Code is amended to read:

11479. Notwithstanding Sections 11473 and 11473.5, at any time after seizure by a law enforcement agency of a suspected controlled substance, except in the case of growing or harvested cannabis, that amount in excess of 10 pounds in gross weight may be destroyed without a court order by the chief of the law enforcement agency or a designated subordinate. In the case of growing or harvested cannabis, that amount in excess of two pounds, or the amount of cannabis a medicinal cannabis patient or designated caregiver is authorized to possess by ordinance in the city or county where the cannabis was seized, whichever is greater, may be destroyed without a court order by the chief of the law enforcement agency or a designated subordinate.

Destruction shall not take place pursuant to this section until all of the following requirements are satisfied:

(a) At least five random and representative samples have been taken, for evidentiary purposes, from the total amount of suspected controlled substances to be destroyed. These samples shall be in addition to the 10 pounds required above. When the suspected controlled substance consists of growing or harvested cannabis plants, at least one 2-pound sample or a sample in the amount of medicinal cannabis a medicinal cannabis patient or designated caregiver is authorized to possess by ordinance in the city or county where the cannabis was seized, whichever is greater, shall be retained. This sample may include stalks, branches, or leaves. In addition, five representative samples of leaves or buds shall be retained for evidentiary purposes from the total amount of suspected controlled substances to be destroyed.

(b) Photographs and videos have been taken that reasonably and accurately demonstrate the total amount of the suspected controlled substance to be destroyed.

(c) The gross weight of the suspected controlled substance has been determined, either by actually weighing the suspected controlled substance or by estimating that weight after dimensional measurement of the total suspected controlled substance.

(d) The chief of the law enforcement agency has determined that it is not reasonably possible to preserve the suspected controlled substance in place, or to remove the suspected controlled substance to another location. In making this determination, the difficulty of transporting and storing the suspected controlled substance to another site and the storage facilities may be taken into consideration.

Subsequent to any destruction of a suspected controlled substance pursuant to this section, an affidavit shall be filed within 30 days in the court that has jurisdiction over any pending criminal proceedings pertaining to that suspected controlled substance, reciting the applicable information required by subdivisions (a), (b), (c), and (d) together with information establishing the location of the suspected controlled substance, and specifying the date and time of the destruction. In the event that there are no criminal proceedings pending that pertain to that suspected controlled substance, the affidavit may be filed in any court within the county that would have jurisdiction over a person against whom those criminal charges might be filed.

SEC. 155. Section 11479.2 of the Health and Safety Code is amended to read:

11479.2. Notwithstanding the provisions of Sections 11473, 11473.5, 11474, 11479, and 11479.1, at any time after seizure by a law enforcement agency of a suspected controlled substance, except cannabis, any amount, as determined by the court, in excess of 57 grams may, by court order, be destroyed by the chief of a law enforcement agency or a designated subordinate. Destruction shall not take place pursuant to this section until all of the following requirements are satisfied:

(a) At least five random and representative samples have been taken, for evidentiary purposes, from the total amount of suspected controlled substances to be destroyed. Those samples shall be in addition to the 57 grams required above and each sample shall weigh not less than one gram at the time the sample is collected.

(b) Photographs have been taken which reasonably demonstrate the total amount of the suspected controlled substance to be destroyed.

(c) The gross weight of the suspected controlled substance has been determined, either by actually weighing the suspected controlled substance or by estimating such weight after dimensional measurement of the total suspected controlled substance.

(d) In cases involving controlled substances suspected of containing cocaine or methamphetamine, an analysis has determined the qualitative and quantitative nature of the suspected controlled substance.

(e) The law enforcement agency with custody of the controlled substance sought to be destroyed has filed a written motion for the order of destruction in the court which has jurisdiction over any pending criminal proceeding in which a defendant is charged by accusatory pleading with a crime specifically involving the suspected controlled substance sought to be destroyed. The motion shall, by affidavit of the chief of the law enforcement agency or designated subordinate, recite the applicable information required by subdivisions (a), (b), (c), and (d), together with information establishing the location of the suspected controlled substance and the title of any pending criminal proceeding as defined in this subdivision. The motion shall bear proof of service upon all parties to any pending criminal proceeding. No motion shall be made when a defendant is without counsel until the defendant has entered his or her plea to the charges.

(f) The order for destruction shall issue pursuant to this section upon the motion and affidavit in support of the order, unless within 20 days after application for the order, a defendant has requested, in writing, a hearing on the motion. Within 10 days after the filing of that request, or a longer period of time upon good cause shown by either party, the court shall conduct a hearing on the motion in which each party to the motion for destruction shall be permitted to call and examine witnesses. The hearing shall be recorded. Upon conclusion of the hearing, if the court finds that the defendant would not be prejudiced by the destruction, it shall grant the motion and make an order for destruction. In making the order, the court shall ensure that the representative samples to be retained are of sufficient quantities to allow for qualitative analyses by both the prosecution and the defense. Any order for destruction pursuant to this section shall include the applicable information required by subdivisions (a), (b), (c), (d), and (e) and the name of the agency responsible for the destruction. Unless waived, the order shall provide for a 10-day delay prior to destruction in order to allow expert analysis of the controlled substance by the defense.

Subsequent to any destruction of a suspected controlled substance pursuant to this section, an affidavit shall be filed within 30 days in the court which

The distributor or manufacturer may claim credit for that overpayment against the amount of tax imposed by this part that is due upon any other quarterly return, providing that credit is claimed in a return dated no later than three years from the date of overpayment.

(c) Any tax collected from a cultivator or cannabis retailer that has not been remitted to the board shall be deemed a debt owed to the State of California by the person required to collect and remit the tax.

Notwithstanding anything herein to the contrary, the board may waive any security requirement it imposes for good cause, as determined by the board. “Good cause” includes, but is not limited to, the inability of a distributor, retailer, cultivator, microbusiness, nonprofit, or other person required to be licensed to obtain security due to a lack of service providers or the policies of service providers that prohibit service to a cannabis business. A person may not commence or continue any business or operation relating to cannabis cultivation until any surety required by the board with respect to the business or operation has been properly prepared, executed, and submitted under this part.

(c) In fixing the amount of any security required by the board, the board shall give consideration to the financial hardship that may be imposed on licensees as a result of any shortage of available surety providers.
